

Web developer/programmer

GirlingMayes run a number of businesses including:

TrainerBase www.trainerbase.co.uk and

LifeCraft www.lifecraft.co.uk

We have a requirement for a web developer/programmer to maintain and develop our existing web sites and create a number of others.

Essential skills required include:

HTML, CSS, VBasic, Java, Ms SQL Server, ASP.

Other desirable knowledge and skills includes:

Web site design, Search Engine Optimisation

Task will include:

Code development and maintenance, Content management, Database administration, Technical support, Web design, Email management, General administration.

Attitude:

Applicants must be diligent and creative. The successful applicant will be required to work both under close supervision of the Directors and current programmer, as well as on their own. A driving licence is essential given our location.

This is a contract position in the first place. GirlingMayes Ltd is based in West Wales and this position would suite someone able to work from home part of the week. GirlingMayes is a creative business and there may be opportunities to experiment and develop software applications based on your own ideas (subject to commercial relevance).

The application process will include appropriate tests including a demonstrable understating on existing web sites.

We are willing to consider applications from candidates that have yet to take their finals but are prepared to start the post on a part time basis.

Salary subject to negotiation.

Closing date: 01/03/06

If you are interested please email an application letter and CV.
